## No Shortage of Work Newsletter

### **WE'RE HAVING ANOTHER PARTY!**

**Our last party was a huge success,  
and we're ready to do it again!**

### **May 10, 2010 - Jimmy's Coffee Shop - Midtown NYC**

An NSoW party is more than just fun and mingling; it's an event where people who want to mentor and teach will meet those who are willing to learn, and where people in need of help may just find it. Anyone and everyone is invited; let all your friends know. However, this is NOT a place to solicit dates, get drunk or beg for jobs. It's a place to meet new people who have something to offer and are looking for ways to help each other.

Come join us May 10 to learn about, discuss, and participate in mentoring, networking, and helping each other find work.

Before you come, [PRINT OUT THIS FORM](#), fill it in, and bring it with you.

Time: 5:00 p.m. - 9:30 p.m.

Date: THIS PARTY WAS IN MAY 2010 – CHECK SITE FOR NEXT PARTY

Location: **Jimmy's Coffee Shop, 990 Avenue of the Americas** (36th and 6th), New York, NY 10018 (212) 244.2211

Jimmy is kindly offering us his space for free, as he believes in No Shortage of Work's concept and practice. Food and drinks will be available, but you have no obligation to buy anything.

If you want to volunteer to help us greet attendees, register them, take photos, etc. then please join us at Jimmy's at 4:30.

Posting: **Mentoring wanted**

Summary: **Finance professional looking for mentoring and guidance on building programming skills for quantitative trading.**

Details: I structure funds in Micro-finance, and I'm interested in understanding how stock price movements may be interpreted using statistics and behavioral theories. I use a little bit of Visual Basic and have a strong background in structured finance (CLO, CDO). I'm looking to expand my skill sets and for someone who can advise me on the career direction I should take. I am considering going back to school for a master's in Financial Engineering, but it's very expensive and I am not convinced of its utility. I can assist my mentor/guide by working on his or her projects while developing my own skills.
